Frontend developer with 3 years of experience in building and maintaining web applications. I have experience working in teams and collaborating with others to ship production software. I'm always willing to learn from others and improve my skills.

Experience

Changino - Front-End Developer

Jul 2023 - Present (6 mos)

Next.js | PWA | Crypto

- Collaborated with the backend team to implement crypto and finance-related functionalities using APIs.
- Reduced API calls by 40% through debugging and optimization of existing codebase, using SWR and WebSockets.
- Combining client-side and server-side rendering methods, we developed a web app that has a PWA panel and SEO-friendly landing and blog pages.

goje - Software Engineer

Mar 2020 - Aug 2021 (1 yr 6 mos)

Software Design | Node.js | Fruit and Vegetable

- goje is an open-source desktop accounting/warehousing software for fruit and vegetable sellers, which I created as my college internship project.

open-source projects

- **minorient** - beautiful gradient wallpapers for any device
- **thankYouJADI** - a Tribute page for dear jadi
- **tldp** - تست لینک درگاه پرداخت

Education

Taleghani Technical school - (Sep 2016 - Sep 2019)
